

MAS Display Pack Figure Gallery

先展示页面级 composition recipe，再展示 canonical current R/ggplot2 数据证据图。Composition recipe 是论文图页 storyboard，不是真实数据结果、不签 publication-ready；重复输入数据变体已退役为 alias，未证明优于 R/ggplot2 的 Python evidence 模板不进入当前 pack。

style_profile_id: paper_neutral_clinical_v1

Composition Recipe Gallery 6

页面级 recipe 展示如何把多个 evidence primitives 组织成论文图页。这里是可视 storyboard，不是真实论文数据、不签 publication-ready。

Clinical Prediction Triptych

clinical_triptych_prediction

Show discrimination, calibration, and clinical utility as one coherent model-performance figure page.

primary_model_performance_summary
ROC Curve
roc_curve_binary

calibration_reliability
Calibration Curve
calibration_curve_binary

clinical_utility_thresholds
Decision Curve
decision_curve_binary

external_validation_or_risk_layering
Generalizability Panel
generalizability_subgroup_composite_panel

Layout

one_large_left_panel_with_two_or_three_right_support_panels

Supporting

calibration_reliability

clinical_utility_thresholds

external_validation_or_risk_layering

Guide strategy

shared_legend_or_direct_labels; no repeated bottom legends

Palette tokens

categorical_accessible

clinical_status

Hero

primary_model_performance_summary

Starter recipes

roc_pr_curve

calibration_curve_with_histogram

decision_curve_clinical_impact

multi_cohort_performance_panel

risk_layering_bars

Label strategy

directly label model curves when legend would crowd; keep thresholds near curves

Boundary

mock storyboard; not real data; not publication-ready

Model Validation Dashboard

model_validation_dashboard

Summarize predictive model robustness, calibration, explanation, complexity, subgroup behavior, and threshold governance without duplicating single-plot templates.

validation_summary_or_generalizability
Generalizability Panel
generalizability_subgroup_composite_panel

explanation_or_feature_importance
SHAP Summary
shap_summary_beeswarm

subgroup_or_sensitivity_stability
Local SHAP Waterfall
shap_waterfall_local_explanation_panel

threshold_or_complexity_governance
Forest Plot proxy
forest_effect_main

Layout
performance_or_generalizability_hero_with_explanation_and_governance_support

Supporting
explanation_or_feature_importance subgroup_or_sensitivity_stability
threshold_or_complexity_governance

Guide strategy
reuse model/cohort palette roles; direct labels for feature lists when legends crowd

Palette tokens
categorical_accessible diverging_centered clinical_status

Hero
validation_summary_or_generalizability

Starter recipes
multi_cohort_performance_panel shap_summary_beeswarm
shap_waterfall_or_force subgroup_forest_with_interaction
robustness_forest_panel +2

Label strategy
prioritize direct cohort, subgroup, and feature labels over repeated legends

Boundary
mock storyboard; not real data; not publication-ready

Start with a mechanism, workflow, or study-design schematic and attach the minimal quantitative panels needed to support the claim.

schematic_or_process_hero

Forest Plot proxy
forest_effect_main

STORYBOARD
