

Transportability governance summary

B

stable

n=412 | events=63 | shift=0.11
slope=1.00 | O:E=1.00

Reference fit

Derivation center remains inside every declared governance band.

stable

n=236 | events=34 | shift=0.16
slope=0.96 | O:E=1.04

Monitor only

Internal validation remains inside the acceptance band.

context dependent

n=188 | events=29 | shift=0.18
slope=0.84 | O:E=1.18

Recalibrate before deployment

External center needs recalibration before any manuscript-facing transportability claim.
